

Logo Design Competition

You are invited to participate in a design competition to determine a logo for the SMC Society. All logos must be submitted in TIFF format, together with a copy of the graphic in the native file format of the software program used to generate the design. The name and version of the software program must also be stated in your submission. The size of the your logo should be 200 x 200 pixels to 300 x 300 pixels and have an image resolution of at least 72 pixels/inch. The IEEE logo shall not be used as part of your logo. Each contestant must verify that the submitted logo has no prior ownership (trademark, copyright). In addition, a short written description describing your logo should be included. One entry per contestant will be accepted. All entries become the property of the Systems, Man, and Cybernetics Society.

The winner of the competition will receive free registration to an SMCS sponsored or co-sponsored conference during 2005 of his/her choice. All submissions must be received by midnight December 20, 2004. Entries should be sent by email with the logo file as an attachment to the SMCS Web Editor, Dorian Sabaz <doriansabaz@ieee.org>. Please include your name, address, and phone number.

The winning entry will be determined by a selection committee consisting of five members of the SMCS Board of Governors, the Webmaster, and the Web Editor. No members of the selection committee nor members of the Board of Governors are eligible to participate in the competition.
