

XI-ZHAO WANG is currently Chair of IEEE SMC's Technical Committee on Computational Intelligence and Chair of IEEE SMC's Baoding Chapter, one of the first SMC chapters to be established in China. He has served as general co-chair for SMC's technical sponsored IEEE International Conference on Machine Learning and Cybernetics for the past 5 years (2002 Beijing, 2003 Xian, 2004 Shanghai, 2005 Guangzhou, and 2006 Dalian). Dr. Wang is also currently an Associate Editor of the IEEE Transactions on SMC, Part B, The international Journal of Information Science and the International Journal of Pattern Recognition and Artificial Intelligence. He has previously served on SMC's Board of Governors. He received SMC's Outstanding Contribution Award in 2004 for his accomplishments in chapter formation and conference organization and SMC's Best Associate Editor Award in 2006 for being recognized as the "Best Associate Editor of 2005 for exceptional contributions to managing publication reviews and providing decisions on them for the IEEE Transactions on Systems, Man, and Cybernetics."

Dr. Wang received his PhD in computer science from the Harbin Institute of Technology in 1998. During 1998-2001 he was a research fellow at the Hong Kong Polytechnic University. Since 2002, he has been Professor and Dean of the Faculty of Mathematics and Computer Science at Hebei University in Baoding, China. Dr. Wang's professional accomplishments during the past five years include the following: (1) 32 journal publications and eight books/book chapters related to his research area; (2) 11 major research projects completed as Principle Investigator or Co-PI; (3) successfully supervised 29 PhD and Master students in applied mathematics and computer science, with another 22 graduate students in progress; (4) Editorial Board member of the International Journal of Information Science, and an Associate Editor of IEEE Transactions on SMC, Part B: Cybernetics and the International Journal of Pattern Recognition and Artificial Intelligence. He has also served as a reviewer for the IEEE Transactions on SMC, IEEE Transactions on Neural Networks, IEEE Transactions on PAMI, IEEE Transactions on Fuzzy Systems, Fuzzy Sets and Systems, Pattern Recognition and Artificial Intelligence, and Information Science.

Dr. Wang's main research interests include learning from examples with fuzzy representation, fuzzy measures and integrals, clustering and classification, neuro-fuzzy systems and genetic algorithms, feature extraction, multi-classifier fusion, and applications of machine learning.
