

IEEE Transactions on Systems, Man, and Cybernetics

Part A

INFORMATION FOR AUTHORS

IEEE Transactions on System, Man, and Cybernetics Part A is published in January, March, May, July, September and November. Each paper submitted is subjected to a thorough review procedure, and the publication decision is based on the comments and recommendations of the reviewers. Review management is generally under the direction of an associate editor. Often, reviews take four to six months to obtain, occasionally longer. An additional several months is required for the publication process.

A. Process for Submission of a Technical Paper

1. All papers should be submitted electronically in Portable Document Format (PDF), Technical Formatting Document (.TXT) or PostScript. The paper should print correctly on 8.5 by 11 inch paper. For UNIX and Windows systems there are postscript to PDF converters, notably ps2pdf which is a part of Ghostscript. A text version of your abstract is required.
2. Please utilize our manuscript submission system at: <http://mc.manuscriptcentral.com/smca-ieee> The site has instructions and/or help buttons on each page.
3. We encourage the submission of attachments with the paper. An attachment (video, animations, applets, code, data, etc.) should be referenced in the text of the paper and enhance the presentation. We currently accept avi files (PowerPoint animations), MPEG video files, Java applets, code with specific compilation instructions and execution instructions and machine specific information, and data sets with a description of the data format. More information is at: <http://www.ieee.org/organizations/pubs/transactions/information.htm>
4. In hardship cases, please send us one original copy of the paper for scanning and the reason why it could not be submitted electronically. Please note that this form of submission will significantly extend the review process.
5. If the manuscript has been presented, published, or submitted for publication elsewhere, you must inform the Editor. Failure to do so may result in the immediate rejection of your manuscript. Our primary objective is to publish technical material not otherwise available elsewhere.

B. Style for Manuscript

1. Use double-space or single space and 10 pt or larger. Please have your text fit in 8.5x11 in. (21.6x27.9 cm) sheets. The manuscripts using the IEEE transaction format (two-columns) are acceptable.
2. Regular papers are normally about 12 *Transactions* pages in length, or shorter. Technical correspondences are generally no more than 6 *Transactions* pages in length. Please see the discussion on excess page charges for charges that are imposed when manuscripts exceed the maximum number of pages.
3. Since the TRANSACTIONS publishes only in English, contributors for whom English is not a native language should consult a colleague who is familiar with the English language, prior to submitting the paper, for the purpose of editing the original manuscript.
4. Provide an informative 100 to 250 word abstract at the head of the manuscript; provide an abstract of not more than 100 words for Correspondences.
5. Provide a separate double-spaced sheet listing all footnotes, beginning with "Manuscript received..." (date to be filled in by Editor) and affiliation of the author(s), and continuing with numeric citation. Acknowledgement of financial support is placed at the end of the first footnote.
6. References should appear in a separate section at the end of the paper, double-spaced with items referred to by numerals in square brackets. References must be complete and in IEEE style: *Style for papers*: Author, first initials followed by last name, title in quotations, periodical, volume, page numbers, month, year. *Style for books*: Author, title. Location: publisher, year, chapter, and page numbers (if desired). See any issue of the Transactions for examples.
7. Provide a separate sheet listing all figure captions.
8. Authors of accepted papers will be asked to supply a head and shoulders photograph of themselves and a technical biography. The biography should be in the form used in IEEE TRANSACTIONS, consisting of three paragraphs of information: name, where and when born, degrees earned, field(s) of study, school, city, state;

chief employment dates, organizations, positions held, type of work, responsibilities, present position; and professional society membership, offices, awards.

9. Accepted papers will rapidly appear on the Web in the IEEE XPLORE system approximately three weeks after corrected page proofs are received from an author. This will typically be before the paper appears in the print version of the journal. Hence, papers will be disseminated to the research community faster utilizing electronic submission.

10. "Information for IEEE Authors" and other information may be obtained at the WWW site:

<http://www.ieee.org>.

C. *Style for Illustrations*

1. Originals for illustrations (including tables) should be sharp, noise-free, and of good contrast as they will be photographed or electronically scanned. We regret that we cannot provide drafting or art service.

2. On graphs, show only the coordinate axes, or at most the major grid lines to avoid a dense hard-to-read result.

3. All lettering should be large enough to permit legible reduction of the figure to column width, sometimes as much as 4 to 1. There should only be one illustration per page and only illustrations should be included in the set of illustrations. **Please be very sure that your lettering is sufficiently large such that it will be readable after photo-reduction.**

4. If an illustration is to be reproduced in color the author is responsible for the incremental cost of printing in color.

D. *Voluntary Page and Excess Page Charges*

After a manuscript has been accepted for publication, the author's company or institution will be requested to pay a voluntary charge of \$110 per printed page to cover part of the cost of publication. These page charges, like those for journals of other professional societies, are not obligatory nor are their payment a prerequisite for publication. The author will receive 100 free reprints without covers if this charge is honored. A mandatory overlength page charge of \$175 is required for each page in excess of 12 pages for a regular paper, 6 pages for technical correspondences. Author who are concerned with these latter charges are encouraged to estimate the length of their manuscripts prior to submission. Detailed instructions on payment of these charges will accompany the page proof.

E. *Electronic Publishing*

The IEEE is now able to set galley proofs directly from a Windows, or Macintosh file. Most word processing formats are supported to some extent but TeX, LaTeX, or Troff are the preferred editors. Further details are contained in the information for authors accompanying the final acceptance letters.

F. *Copyright*

It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright law, authors are required to sign an IEEE Copyright Form before publication. This form, a copy of which may be obtained from the following web address: <http://140.113.149.159/publications/IEEECRform101901.pdf>, returns to authors and their employers full rights to reuse their material for their own purposes.

The Editor-in-Chief of the *IEEE Transactions on Systems Man and Cybernetics Part A* is:

Dr. Witold Pedrycz, *Editor-In-Chief*
IEEE Transactions on Systems Man & Cybernetics, Part A
Dept. of Electrical & Comp. Engg.
University of Alberta
Edmonton, T6G 2G7 Canada
