Position of an Assistant Professor ("adiunkt" in Polish) in Computer Science, Faculty of Mathematics, Informatics and Mechanics at University of Warsaw (MIM UW), Poland.

The Faculty of Mathematics, Informatics and Mechanics at University of Warsaw (MIM UW) invites applications for positions of an assistant professor ("adiunkt" in Polish) in Computer Science, starting on 1st October 2019.

MIM UW is one of the strongest computer science faculties in Europe. It is known for talented students (e.g., two wins and 13 times in top ten at the ACM International Collegiate Programming Contest) and strong research teams, especially in theoretical aspects of computer science like algorithms, logic and automata, cryptography (e.g., 8 ERC grants in these fields, 4 of them running at the moment). For an overview of research areas represented in the Faculty, see http://www.mimuw.edu.pl/en/dziedziny-badan

Requirements:

- PhD degree in computer science or mathematics (obtained at most 5 years ago)

- Strong publication record in international computer science journals or conferences

- Teaching experience

- Mobility record (participation in conferences, research visits, postdoc positions, etc.)

In the current call, the position is offered in two variants:

1. standard "tenure-track" position, with teaching load of 210 hrs/year

2. a more "postdoc-like" position, for 2 or 4 years, with reduced teaching load (120hrs/year)

Deadline for applications: 31st January 2019.

More details, including application procedure can be found under the following links:

1. https://www.mimuw.edu.pl/rozne/konkursy-pliki/2019/praca-adiunkt-31-01-2019-en.pdf

2. https://www.mimuw.edu.pl/rozne/konkursy-pliki/2019/praca-adiunkt-s-eilenberg-31-01-2019-en.pdf

For more information about the procedure, requirements, conditions, etc. please contact a vice-director of Institute of Informatics, Lukasz Kowalik (kowalik@mimuw.edu.pl).
