- (3) Outstanding research record or work in progress in top-tier journal publications
- (4) Teaching excellence at undergraduate and/or graduate-level is preferred.

3.About us

SJTU Asia-Pacific Graduate Institute (SJTU-APGI) aims to be the overseas branch campus of Shanghai Jiao Tong University. It is a platform for graduate education and frontier research focused on solutions for the challenges of future cities. Business programs have been established in Singapore for close to thirty years. Since 2012, SJTU has also been actively involved in the research field in Singapore by taking part in the CREATE (the Campus for Research Excellence and Technological Enterprise) program under the National Research Foundation of Singapore (NRF). SJTU, jointly with its Singapore partner, NUS, has collaborated on the Energy and Environmental Sustainability Solutions for Megacities (E2S2) CREATE program, equipped with a more than 2000m² laboratory. SJTU-APGI is currently working on the next phase of CREATE program in AI+Ageing. The world-class partners on CREATE programs include other institutes like MIT, UC Berkeley, Cambridge, and ETH.

Situated in Singapore, SJTU-APGI is an employer that offers highly competitive salaries. Singapore is a young, energetic, cosmopolitan city and a melting pot of the east and the west. It enjoys low tax rates and is also well-known for its entrepreneurial and innovative spirit.

4.Application Details:

Applicants should submit the following documents to apgi@sjtu.edu.cn, with a subject of "CREATE+name":

- (1) a cover letter with statements of research interests,
