**Launching of the IEEE Transactions on Artificial Intelligence**

It is here, it is now, it is a great piece of news! IEEE has established the new journal our community has been waiting for to publish our work on Artificial Intelligence! Don't miss out on this opportunity and join the community of authors who started already preparing their papers for the IEEE Transactions on Artificial Intelligence (IEEE TAI)! In one month, you will be able to submit your paper. It is time to prepare your best piece of work for IEEE TAI to increase your visibility in the international AI community and to be among the first authors to publish in IEEE-TAI

The IEEE Transactions on Artificial Intelligence (IEEE TAI) is a collaboration between five IEEE societies: Computational Intelligence Society (lead), Computer Society, Systems Man Cybernetics Society, Signal Processing Society, and Robotics and Automation Society. IEEE TAI will start receiving papers in April 2020 with the first issue scheduled for July 2020. The submission website is at https://mc.manuscriptcentral.com/tai-ieee. However, please note that this website is not ready yet to accept papers. Below is the scope for IEEE TAI

"The IEEE Transactions on artificial intelligence (TAI) is a multidisciplinary journal publishing papers on theories and methodologies of Artificial Intelligence. Applications of Artificial Intelligence are also considered."
