

Congratulations to the following IEEE Systems, Man, and Cybernetics Society (SMCS) members who were elevated to IEEE Fellow grade, effective January 1, 2024! The grade of Fellow is conferred by the IEEE Board of Directors to a person with an extraordinary record of accomplishments in any of the IEEE fields of interest.

The following members were evaluated by the SMCS Fellow Evaluation Committee:

Mingcong Deng, for contributions to learning and operator based uncertain nonlinear systems analysis, control, and applications

Oleg Gusikhin, for contributions to applications of cyber-physical systems in automotive engineering and connected vehicles

Ming Hou, for leadership in intelligent adaptive systems and interaction-centered design

Tadahiko Murata, for contributions to evolutionary multi-objective optimization and algorithms

Mehrdad Saif, for contributions to monitoring, diagnosis and prognosis in cyber-physical health systems

The following SMCS members were evaluated by other IEEE Societies:

Mariagrazia Dotoli, for contributions to control of logistics systems in smart cities

Enhong Chen, for contributions to context-aware data mining and recommender systems

Reza Ghanadan, for leadership in robust artificial intelligence technologies and applications

Zhi Wei, for contributions to knowledge discovery from biological data

Krassimir Atanassov, for contributions to introducing intuitionistic fuzzy sets and their applications

Long Cheng, for contributions to neural networks for optimization and control

Xinbo Gao, for contribution to hybrid augmented intelligence and image quality assessment

Maoguo Gong, for contributions to collaborative learning and optimization

Changchun Hua, for contributions to intelligent control of nonlinear time-delay systems
