

IEEE SMCS Members Elevated to IEEE Fellow effective January 2022

Nominee Details
Giancarlo Fortino <i>for contributions to Engineering of IoT-enabled Wearable Computing Systems</i>
Daniel Abramovitch <i>for contributions to the development of algorithms for control of mechatronic systems</i>
Thomas Baeck <i>for contributions in synthesizing evolutionary computation</i>
Xinkai Chen <i>for contributions to nonlinear adaptive control and nonlinear observer design for mechatronic systems</i>
Jinjun Chen <i>for contributions to scalable architecture for cloud data storage and processing</i>
Chee-Yee Chong <i>for contributions to information fusion methods for multi-sensor tracking</i>
Zhijun Li <i>for contributions to control systems for wearable robotics and bio-mechatronics</i>
Sudip Misra <i>for contributions to intelligent sensing in constrained IoT environments</i>
Vittorio Murino <i>for contributions to signal processing for behavior analysis</i>
Ruqiang Yan <i>for contributions to defect/fault detection and diagnosis of rotating machine</i>
Chunhua Yang <i>for contributions in intelligent control and optimization of complex industrial processes</i>
