

Announcement from the desk of SSE VP Prof. Haibin Zhu

I am pleased to share an update regarding the restructuring of the SSE Technical Committees. Following extensive and constructive discussions with the leadership of the Technical Committee on Enterprise Architecture and Engineering and the Technical Committee on Enterprise Information Systems, we have agreed to merge these two TCs into a new committee: Technical Committee on Enterprise Systems, Enterprise Architecture, and Engineering.

The leadership of the new TC is as follows:

Chair: Li Da Xu (USA)

Co-Chairs:

Shancang Li (UK)

Alta van der Merwe (South Africa)

Michael Kataev (Russia)

Secretary: Jingzhi Li (USA)

Congratulations to the new leadership team. This restructuring will strengthen and enhance the development of related technical activities.
